Dirección: Carretera N-110, km. 228 40150 Villacastín (Segovia)

BOVEDILLAS

BOVEDILLA 620/200/200

Bovedilla semirresistente (SR). Pieza de entrevigado prefabricada de hormigón en masa de consistencia semi-seca. Se utiliza en la ejecución de forjados unidireccionales (bovedilla con pestaña) con viguetas pretensadas.

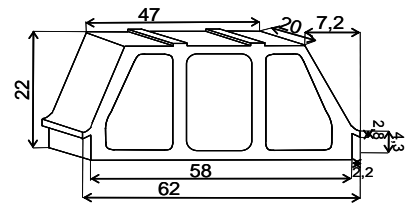

<i>Dimensiones (mm)</i>	620x200x200
<i>Peso por pieza (Kg)</i>	17,5
<i>Piezas por palet</i>	50
<i>Peso por palet (Kg)</i>	900
<i>Resistencia a compresión (MPa)</i>	≥ 16
<i>Resistencia a flexión (KN)</i>	≥ 2,4

BOVEDILLA 620/200/220

Bovedilla semirresistente (SR). Pieza de entrevigado prefabricada de hormigón en masa de consistencia semi-seca. Se utiliza en la ejecución de forjados unidireccionales (bovedilla con pestaña) con viguetas pretensadas.

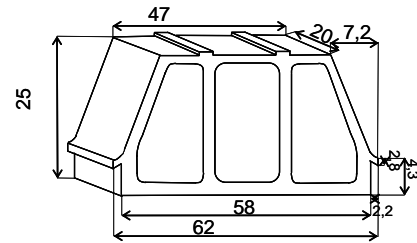

<i>Dimensiones (mm)</i>	620x220x200
<i>Peso por pieza (Kg)</i>	18
<i>Piezas por palet</i>	50
<i>Peso por palet (Kg)</i>	920
<i>Resistencia a compresión (MPa)</i>	≥ 16
<i>Resistencia a flexión (KN)</i>	≥ 2,4

BOVEDILLA 620/200/250

Bovedilla semirresistente (SR). Pieza de entrevigado prefabricada de hormigón en masa de consistencia semi-seca. Se utiliza en la ejecución de forjados unidireccionales (bovedilla con pestaña) con viguetas pretensadas.

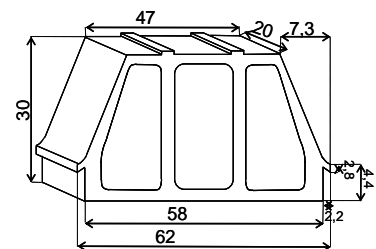

<i>Dimensiones (mm)</i>	620x250x200
<i>Peso por pieza (Kg)</i>	18,5
<i>Piezas por palet</i>	40
<i>Peso por palet (Kg)</i>	760
<i>Resistencia a compresión (MPa)</i>	≥ 16
<i>Resistencia a flexión (KN)</i>	≥ 2,4

BOVEDILLA 620/200/300

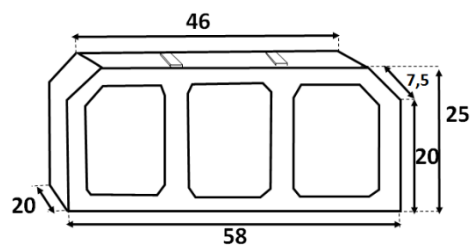

Bovedilla semirresistente (SR). Pieza de entrevigado prefabricada de hormigón en masa de consistencia semi-seca. Se utiliza en la ejecución de forjados unidireccionales (bovedilla con pestaña) con viguetas pretensadas.

<i>Dimensiones (mm)</i>	620x250x300
<i>Peso por pieza (Kg)</i>	19,3
<i>Piezas por palet</i>	30
<i>Peso por palet (Kg)</i>	600
<i>Resistencia a compresión (MPa)</i>	≥ 16
<i>Resistencia a flexión (KN)</i>	≥ 2,4

BOVEDILLA IN SITU

<i>Dimensiones (mm)</i>	580x250x200
<i>Peso por pieza (Kg)</i>	20
<i>Piezas por palet</i>	40
<i>Peso por palet (Kg)</i>	800
<i>Resistencia a compresión (MPa)</i>	≥ 16
<i>Resistencia a flexión (KN)</i>	$\geq 2,4$

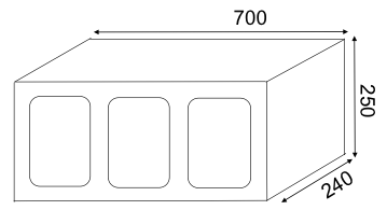

CASETONES

CASETÓN RETICULAR 700/250/240

Elementos no resistentes. Tradicional para forjados reticulares de casetón perdido.

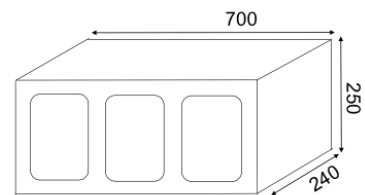

<i>Dimensiones (mm)</i>	700x250x240
<i>Peso por pieza (Kg)</i>	29
<i>Piezas por palet</i>	40
<i>Peso por palet (Kg)</i>	1180

CASETÓN RETICULAR 700/300/240

Elementos no resistentes. Tradicional para forjados reticulares de casetón perdido.

<i>Dimensiones (mm)</i>	700x300x240
<i>Peso por pieza (Kg)</i>	35,5
<i>Piezas por palet</i>	30
<i>Peso por palet (Kg)</i>	1080

the 1990s, the number of people aged 65 and over in the UK has increased by 25% (Office for National Statistics 2000). This has led to a growing concern that the number of people who are unable to care for themselves will increase significantly in the next 20 years (Department of Health 2000).

There is a growing awareness that the current system of care for people with mental health problems is inadequate and that a new approach is needed. This has led to a number of initiatives aimed at improving the care of people with mental health problems. One of these is the development of self-help materials for people with mental health problems. This paper describes the development of a self-help manual for people with mental health problems.

Background

The current system of care for people with mental health problems is based on a model of care in which people with mental health problems are treated in hospital. This model of care has been shown to be inadequate and to be associated with a number of problems (Department of Health 2000).

One of the main problems with the current system of care is that it is based on a model of care in which people with mental health problems are treated in hospital. This model of care has been shown to be inadequate and to be associated with a number of problems (Department of Health 2000).
